

# Translate Webpages in Chrome

When you come across a page written in a language you don't understand, you can use Chrome to translate the page.

1. On your computer, open Chrome.
2. Go to a webpage written in another language.
3. At the top, click **Translate**.

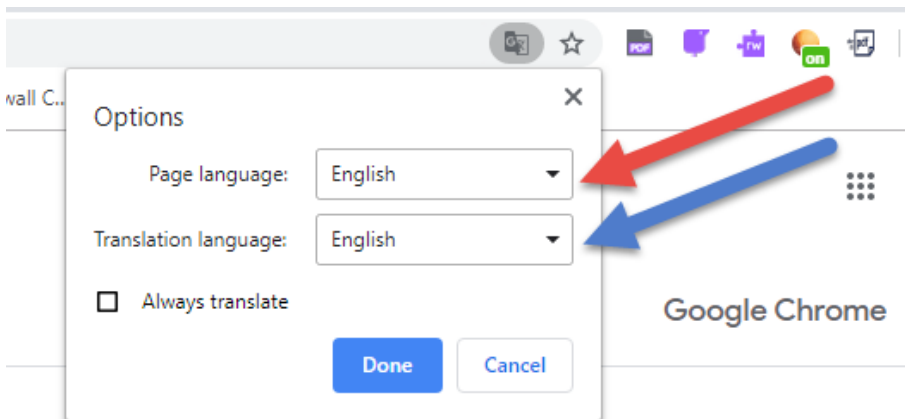

4. In the top right corner, this window will pop up, click the option key.

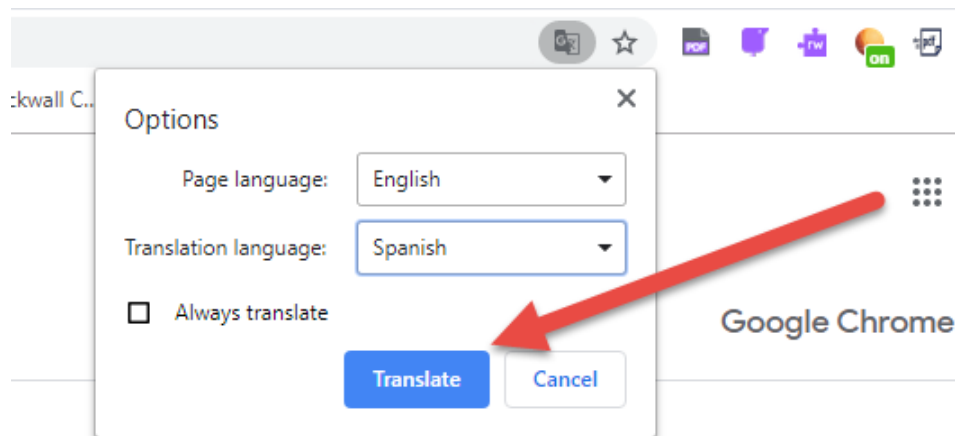

5. Please make the selections below:

**Page language** – select the language on the page.

**Translation language** – select the translation language needed.

6. Chrome will translate the webpage this one time.
7. Or you can check the Always translate box.
8. Not working? Try refreshing the webpage.

9. If it's still not working, right-click anywhere on the page. Then, click Translate to [Language].
