Christopher Gasaway

Director of Technology & Information Services

Manages acquisition and implementation of all technology assets and systems within the district.

Since 1999, Mr. Gasaway has served as the district's top technology leader. With over 15 years of education technology implementation experience, he leads a team of technology specialists in all major technology purchases, installation and training. Mr. Gasaway holds a Master's degree in Gifted and Talented Education from Southern Arkansas University, and a Bachelor of Science degree in Industrial Arts Education. His experience as a principal and classroom teacher in technology and general science courses serves as a foundation for understanding and vision about how technology supports and enables the education and administrative functions in the district.
